PROJECTS

School information System

<https://github.com/Anirban-dash/School-Information-System>

This project is about a school information system where people can log in and access the content of the information system. This is a full stack web page. It is a responsive and dynamic webpage. It has three different login places.

E commerce website

<https://github.com/Anirban-dash/Web-dev.github.io>

This project redirects to you a home page of an e-commerce website where you can view product, order product, cancel ordered product etc. .

News Dose Web App

<https://github.com/Anirban-dash/NewsDose>

You can get daily news in this web app and this project is built using React.js. This web app has a nice and interactive ui and it has different categories of news.

Portfolio

<https://github.com/Anirban-dash/MyPortfolio>

This is my portfolio. This web app is built using react. It uses chat plugin for live chat.
